Pressotherapy

AMELES
Pressotherapy

Simple,
user-friendly
and customisable

A **detailed and user-friendly interface** helps the operator to **monitor** all the work parameters.

Two operating modes for **immediate, easy and effective** use of Ameles.

- **Basic** includes a series of preset-configured treatments
- **Professional** allows the operator to set parameters based on sectors and area to treat

100% Made in Italy **Pressotherapy**

Ameles is **Mantis** answer to modern pressotherapy.

Thanks to the ongoing work of the **research and development** department, we are proud to present a **new and modern concept of wellness**.

Ameles is the **gold standard** of sequential press draining massage which helps to **drain** excess liquids through specific program and **reactivate blood circulation** in the legs, abdomen and arms. Through pneumatic massage, Ameles helps to **safely detox and oxygenate** tissues thanks to the constant control of the innovative software developed by **Mantis Lab**. The **intermittent action** guarantees deep-down **hydroregulatory** activity which reactivates cell exchange.

15

MULTI-FUNCTION

15 sectors that work in **combination or individually** with the **SEAWAVE** method, from the foot to the cervical area with decreasing compression, but uniform.

PRECISE

Thanks to the **automatic detection** system for arterial and venous blood pressure, Ameles performs **effective and customised** treatments, with the option of varying the pressure and corresponding pause times.

UNIQUE

The **innovative ankle applicator** intervenes on lower leg peripheral oedemas, whether cosmetic or traumatic, in a precise, effective and gentle manner. The **exclusive triangular abdominal massager** stimulates peristalsis with dedicated program.

EFFECTIVE

The **cervical and lumbar applicator** guarantee a **delicate and effective action** on these areas, easing nerve compression and providing immediate **benefit and wellbeing**.
