MR COMPACT

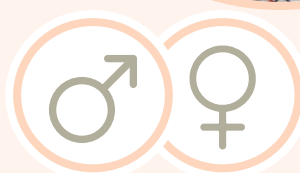

The most evolved technology **100% Made in Italy**

Theramagnetic Compact:
the compact that guarantees utmost
efficiency and maximum performance.

Easy to use thanks to the intuitive software and practical
touchscreen.

Personalised treatments transform every session into a
unique experience.

for HIM
and for HER

Theramagnetic is much more
than a simple beauty treatment.

It is a unique experience that regenerates
the body and mind, making it possible to
rediscover one's natural psychophysical
balance for an improved sensation of
well-being.

D.E.S.
technology
patent

DES
technology

D.E.S. Technology - Dual Energy System.
A patented system that combines the use of two high-performance technologies: one **mechanical** (MRM) and one **energetic** (PMFS).

Through the D.E.S. Technology, **Theramagnetic Compact** offers a non-invasive solution to counteract blemishes and various inflammatory diseases.

MRM

Mechanical Manipulation with Motorised Rollers

Two motorised rollers mechanically reproduce a manual massage but with improved results.

It is a **non-invasive** treatment defined **ENDOMASSAGE**, which combines the two-way movement of the motorised rollers with skin suction, for a deeper and more effective action. According to the blemish being treated and the client's needs, the treatment can be personalised using different power levels and frequencies.

PMFS

Pulsed Magnetic Fields with Stochastic Resonance

PMFS – Pulsed Magnetic Fields with Stochastic Resonance - are an excellent cell regenerator able to improve and speed up the exchange of substances between cells. Pulsed Magnetic Fields stimulate fibroblasts, the heart of connective tissue, promoting the proliferation. The cells therefore receive an increased supply of oxygen and naturally eliminate waste substances.

Skin tone is thus restored, along with a healthier, more luminous appearance. The results of PMFS are immediately visible and last over time.

Two **exclusive** and **ergonomic**
handpieces designed to treat
every part of the body

MINI DES (MRM+PMFS)

It is the handpiece for the body equipped with two bidirectional motorised rollers and a pulsated suction system combined with PMFS for precise, fast and efficient action.

MAXENERGY (PMFS)

A handpiece consisting in a special Pulsed Magnetic Fields system that works on skin blemishes, improving and promoting cell regeneration.

Fields of application

AESTHETIC

The last frontier in the anti-ageing and body shaping field

FITNESS

Targeted toning and muscle "training"

WELLNESS

For the body, mind and soul

THERAPEUTIC

An alternative to restore normal physiological conditions

Actions

Theramagnetic Compact, through specific handpieces, protocols and personalised programmes, leads to tangible, measurable and long-lasting results visible from the very first treatments.

Theramagnetic Compact recharges your body's batteries!

The pulsed magnetic fields help soothe pain and balance circadian rhythms, reinvigorating the cell during its phase of life.

- Remodelling
- Reduces girths
- Draining
- Lipolytic-Slimming
- Antioxidant
- Stimulates fibroblasts
- Strengthens and improves tissue elasticity
- Lympho - draining
- Regenerates tissues after pregnancy
- Improves microcirculation
- Ideal pre and post-liposuction*
- Relieves muscle and joint pain*
- Reduces rheumatic pain and inflammation*
- Encourages the re-absorption of oedemas*
- Reduces the limitations of motor functions*
- Intervenes in inflammatory processes*
- Suitable for post-injury rehabilitation*
- Suitable for post-operative rehabilitation*
- Suitable for long-term treatment of chronic or inflammatory diseases*

* Therapeutic protocols - medical version

Measurable and visible results!

*Research and
clinical tests
have proven
the efficiency of
**Theramagnetic
Compact**.*

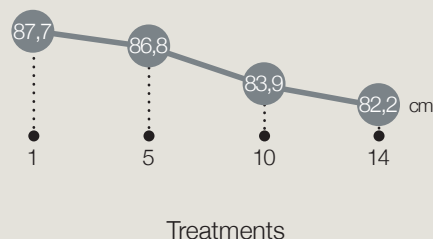

Its exclusive **D.E.S. Technology**
system simultaneously works on the
remote causes of cell suffering and
blemishes.

It improves the **skin texture** and
remodels the **silhouette**.

It also influences the **psycho-
physical** sphere, restoring
emotional balance, reducing
stress and improving the quality
of sleep for a renewed sense
of well-being.

Mantis reinvents cosmetics

Mantis reinvents cosmetics and beauty treatments.

In line with the most modern scientific research, we have developed M.Skincare, the new range of professional products characterised by their high exclusivity, innovation and added value. A project dedicated to professionals aware of their status as a point of reference for an increasingly demanding clientele, ever more attentive to their own well-being.

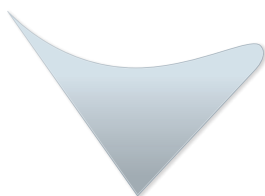

The new line of body cosmeceuticals, thanks to the pool of deeply researched active ingredients, specifically selected according to the objectives of the treatments, enhances the characteristics of Theramagnetic, raising its performance to even higher levels. The use of M.Skincare products in home care helps to maintain and intensify the results obtained with treatments performed at the institute.

Remote technical assistance

For all its devices, Mantis guarantees remote technical support through an internet connection, for a continuous and efficient assistance.
